

The eNABLS vision

Boost skills & capacity building to ensure environmental sustainability and a nature-positive society by means of biodiversity & NBS learning and teaching

Living Labs across Europe - a multi-actor approach

Identity

Title	Education and Nature-Based Solutions: enable Society to bend the curve for biodiversity
GA number	101135035
Duration	1/1/2024 - 31/12/2026 (36 months)
Type	Coordination and Support Action
Programme	Horizon Europe - Cluster 6
EU Contribution	2,951,847.33 €
Coordinator	University of Hohenheim - Germany

Education and Nature-Based Solutions:

enable Society to bend the curve for biodiversity

Our mission

Networking and collaboration to promote transdisciplinary dialogue and mainstream biodiversity and NBS in higher education and TVET

Our approach

Living Labs in 7 countries (DE, NL, FI, AT, LT, EL, CZ) to act as multi-actor platforms that foster transdisciplinary dialogue and engage all levels of society to address biodiversity loss in a holistic way and assist a 'Just Transition'*:

- 'greening' the economy in a fair and inclusive way
- creating meaningful work opportunities
- leaving no one behind

Our objectives

- Embed NBS concepts and approaches - pathways for biodiversity preservation and climate resilience - in universities, vocational schools, among professionals and society
- Develop and upscale more relational and applied forms of teaching, learning and capacity building
- Promote a Whole Institution Approach - universities become their own LLs
- Ensure and promote human health and well-being, social equity and employment opportunities

All "voices" are heard, no one is left behind

STEP
02

LIVING LABS IN ACTION

Promote transdisciplinary dialogue - 'a voice for all'

- collective NBS awareness & capacity building
- TVET & skills development programmes (design & pilots)
- universities at the heart of society as role models
- dialogue on NBS in university curricula, priorities & objectives

Biodiversity

Nature-Based Solutions (NBS)

Interuniversity cooperation

Technical & Vocational Education and Training (TVET)

Living Labs (LLs)

STEP
03

MAKING RIPPLES

Ensure the longevity of eNABLS results

- online platform for easy information & material access
- collaboration & joint activities with other projects
- cross-fertilisation: knowledge sharing among LLs to propagate good practices
- lessons learnt & policy recommendations

PAVING THE WAY

Understand current biodiversity & NBS positioning:

- NBS in higher education and TVET curricula
- awareness and perceptions across society
- status and trends in biodiversity loss & NBS, standards & protocols in the supply market
- networking and collaboration among universities & universities-TVET
