

Learn in Nature Lab

exploring education methods for Nature-Based Solutions

Learn in Nature Lab (LNL)

eNABLS German Living Lab (LL), coordinated by the Center for Biodiversity and Integrative Taxonomy (KomBioTa)- University of Hohenheim, explores the effectiveness of various educational methods—case studies, outdoor learning, expert lectures, and dialogue sessions—in enhancing students' understanding of Nature-Based Solutions (NBS). These activities also provide teachers with valuable insights into the effectiveness of these approaches for teaching NBS concepts.

Nature-Based Solutions (NBS)

Nature-based Solutions are actions addressing key societal challenges through the protection, sustainable management and restoration of both natural and modified ecosystems, benefiting biodiversity and human well-being. (IUCN, 2020)

Field Trips & Expert Guest Lectures

ENHANCE CLASSROOM LEARNING WITH REAL-WORLD EXPOSURE!

At LNL, we are exploring innovative teaching and learning methods to improve student learning, particularly in Nature-Based Solutions (NBS). By collaborating with us, you can integrate industry and external expertise into your modules through excursions or guest lectures, either as optional or mandatory components.

What do we offer?

• Excursions

Organised field trips to reinforce your module with hands-on experience.

• Guest Lectures

Industry experts and external professionals bring real-world insights directly to your classroom.

Our commitment-

• Anonymous Student Feedback

We assess learning outcomes to measure impact.

• Module Leader Feedback

We gather insights from organisers to enhance the experience.

• Feasibility Evaluation

We assess the integration of external partnerships for future improvements.

Simply fill in the attached form and send it to us—we'll take care of the rest!

**LET'S BRING REAL-
WORLD EXPERIENCE INTO
EDUCATION—TOGETHER!**

NBS 101 Sessions

Through NBS 101, we facilitate an engaging dialogue between scientific researchers and the audience, guided but not strictly controlled. A presentation—whether on research findings or scientific concepts related to NBS—is followed by an open discussion, fostering deeper understanding and knowledge sharing. Sessions also feature moderated discussions on open topics and film screenings.

**A DYNAMIC EXCHANGE
OF IDEAS | A CONTINUOUS
FEEDBACK LOOP | A TWO-WAY
FLOW OF INFORMATION**

How to get involved?

- Choose a topic relevant to Nature-Based Solutions.
- Prepare key questions to encourage audience interaction.
- Inform us of any specific requirements for the event venue.
- Share your preferred time slots for hosting the session.

Our audience includes students, academic researchers, industry representatives, and the general public. We can arrange a venue within the University of Hohenheim or at our partner organisation, the Staatliches Museum für Naturkunde Stuttgart.

Our objective

We aim to anonymously assess knowledge exchange and the effectiveness of this interactive teaching method.

To participate or present a topic related to NBS, please complete the attached NBS 101 form!

How can we support you?

Coordination

We handle all coordination for excursions and guest lectures.

Industry Partnerships

We arrange visits and collaborations

Scheduling & Safety

We ensure sessions fit within your timetable and adhere to any necessary safety measures.

Classroom Booking

We secure rooms for guest lectures as needed.
